

# Prince, The Word

What is this new xhaltation  
That eye just can't explain?  
What r these new inspirations  
That eye can't get out my brain?  
How am eye gonna sleep with this feeling  
Rushing all through my veins?  
Get up, come on let's do something  
Don't u wanna go get saved?

The night is calling u 2 act  
Act upon every urge  
U can't get no satisfaction  
If u ain't got the courage  
Eye don't know what u're afraid of  
Eye don't know what u've heard  
Get up, come on let's do something  
Don't u wanna know the word?

Who's gonna save us when them spiders get next 2 u?  
Spinning their sticky webs around what u do  
We gotta safeguard against 4ked tongue and the treachery of the wicked 1  
Get up, come on let's do something

Don't matter how far u have 2  
The truth has got to be told  
Don't matter how shiny ur lips  
They'll never b streets of gold  
They might try 2 get us crazy  
Cuz they don't know what eye've heard  
We got this new xhaltation  
Eye'm talking about the word

Who's gonna save us when them spiders get next to u  
Spinning their sticky webs around what u do  
We gotta safeguard against 4ked tongue and the treachery of the wicked 1  
Get up, come on let's do something

Get up, come on let's do something  
No reason to feel this pain  
Get up, come on let's do something  
Come on, go, let's get saved  
Get up, come on let's do something  
No reason to feel this pain  
Get up, come on let's do something  
Come on, go, let's get saved

Get up, come on let's do something  
Get up, come on let's do something  
Get up, come on let's do something  
Get up, come on let's do something  
Don't u wanna hear the word?
