

# Prodigy, Diesel Power

Yo, I used to check out lyrics upon the format  
Build with skill with technique. Computer A-DAT  
My lyrical form is clouds on your brainstorm  
I get hyped, think, thought flow  
Acrobat, sync the track, pump the track  
Dance missions, close (clubs??) like spores react past (by??) strong visions  
And hurrying more reflects on the dancefloor  
Blowing up (Flow it up??) and having mad people showing up  
Packing crowds, jam-packed venues  
Needles collapse, while atmospheres continues  
Sprinkle that,  
Winning like that, moving like that, hitting like that  
The melody is fat (phat??)  
Yeah, I'm on the energy source  
The cosmic boss  
With Prodigy  
Different astrology  
My intellect's devour (the power??)  
With Diesel Power

Change to another route  
My techniques, strategies, abilities.  
I leave cords of mikes hanging like spring leads  
You would try so fast, beyond the human eye,  
Lyrical tactics, vocal gymnastics  
Ease (E's??) and pepped up  
You get scrapped up  
Smacked up, backed up, your crew's all cracked up  
Checking flow  
Pick choose, quick  
You can't stick  
My medical brain's a stranger's angles  
You get tangled. Twisting side effects us  
Channels repeat, complete. Can't complete  
Check that our texture
