Poverty hit home
Like a war zone
Check America's pulse
Heard a death tone
Division hitting
Like a bullet to precision
Kill the dream
Kill the vision no listen
What the fuck are you waiting for
Stand up and rise like the tide
Ad move your
Ass with the quickness
You may live on the hit list
No fear bare witness

Where's ya heart at the heartless cant; stay
Bow down
Just do what the man say
buy them lie the
Deny it all day
In a box they locked in
The dead lay
Bombs droppin on cities
Where kids play
Soldiers fallin in the name of freedom hey
Civilians buried in the rubble
Where dreams die
Politicians spew lie after fucking lie

NO HATRED
FUCK RACISTS
BLANK FACES
TIME'S CHANGING
ONE NATION
UNIFICATION
THE VIBRATION
UNFUCK THE WORLD
