Queen, Jealousy

(Mercury)

Oh how wrong can you be? Oh to fall in love was my very first mistake How was I to know I was far too much in love to see? Oh jealousy look at me now Jealousy you got me somehow You gave me no warning Took me by surprise Jealousy you led me on You couldn't lose you couldn't fail You had suspicion on my trail

How how how all my jealousy I wasn't man enough to let you hurt my pride Now I'm only left with my own jealousy

Oh how strong can you be With matters of the heart? Life is much too short To while away with tears If only you could see just what you do to me Oh jealousy you tripped me up Jealousy you brought me down You bring me sorrow you cause me pain Jealousy when will you let go? Gotta hold of my possessive mind Turned me into a jealous kind

How how how all my jealousy I wasn't man enough to let you hurt my pride Now I'm only left with my own jealousy But now it matters not if I should live or die 'Cause I'm only left with my own jealousy
