

# Queens, I was made for dancing

You got me rolling a wheel on the road  
Tournning round and round, nowhere to go  
I've got to find out if you're feeling it too  
It's hard to tell, so here's what I do  
And every time I want more  
I'll take you out on the floor  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
The days and nights are moving by me and you  
You're such a crazy love, you tear me in two  
I spend my time moving to dreams and a phase  
It's a crazy love, you can see it in my face  
And every time I want more  
I'll take you out on the floor  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long  
I was made for dancing all, all, all, all night long
