

# Quincy Punx, Young & Dumb

Well you say my life is going nowhere  
Young & dumb and I just don't care  
I've got no money and I've got no job  
And I lay around like a lazy slob  
Walking down the street, kicking up trash  
Slashing your tires and smashing your glass  
Young & dumb nothing better to do  
Then have another beer and another lude

[Chorus:]

Young & dumb and there's nothing better to do  
Young & dumb I'm so bored with you  
Young & dumb and I'm high all the time  
Young & dumb and I like it just fine

Well I do nothing all day but I got no time  
I think I must be losing my mind  
I can't relate to reality  
I can't believe the things around me  
There's never anything going on  
Everything I do is wrong  
Young & dumb nothing better to do  
Then have another beer and another lude

[Repeat Chorus]
