

# Quorthon, Fade Away

Caught between the dusk and dawn  
I numb myself to death yet I'm awake  
I'm running out of alcohol  
I shouldn't feel a thing yet all I feel is hate

I realise as the night goes by this is not the first time  
This maddening pain keeps me awake I need to fade away all I feel is hate

I wish that I'd just fade away, fade away, fade away  
I can't cope with all this hate, all this hate, all this hate  
I'm so tired still awake, still awake, still awake  
Finally I fade away, fade away, fade away

I pour another drink coz I can still think  
And won't stop aching 'til I'm out of my head  
That ticking clock is killing me  
I wish that I was dead it wouldn't be too bad

I hope you're fine and well, I say  
I wouldn't want it any other way  
So please tell me how do you feel  
Now tell me how's the league, tell me how's the league

I can tell I fade away, fade away, fade away  
I'm stuck here just like yesterday, yesterday, yesterday  
I miss those jam and pancake days you would shower and I would bade  
It feels like I just fade away, fade away, fade away, away

I wish that I'd just...
