

R5, Heart Made Up On You

Got my heart made up on you

You said what you said
When words are knives it's hard not to forget
But something in my head wouldn't reset
Can't give up on us yet
No,
Your love was so real
It pulled me in just like a magnetic field
I'd let you go but something's taking the wheel
Yeah, it's taking the wheel

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Got my heart made up on you

'Cause you'll be making it rain
Up all night thinking, I'm planning my escape
But this insomnia ain't going away
And now I'm back at your place
Oh, no

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Got my heart made up on you

Look what you did, what you did
What you're doing to me
You got me searching for the words, like a silent movie
I can't breathe, I can't see It's so out of control
But baby honestly my hands are up, I'm letting go

Go, go, go, go, go, go, go, go, go

Got my heart made up on you

My mind says, no you're no good for me
You're no good but my heart's made up on you
My body can't take what you give to me
What you give, got my heart made up on you
Whoa, whoa
Got my heart made up on you

My mind says no
Got my heart made up on you
Up on you, up on you
