

# Racer X, Poison Eyes

[Paul Gilbert, Jeff Martin, Bruce Bouillet]

Kicked in the teeth  
I fell down on the floor  
Smooth talkin' won't save me now that's for sure  
I can't deny the truth  
Well I might have tried, but she's got the proof

I thought that I was smooth  
She's on to all my moves

You can't disguise poison eyes  
She wants my life, I can't hide from  
Poison eyes (your eyes)

357 in nylons and rouge  
Hunting me down she said she's been used  
There's nothing left to say  
If she catches up she'll blow me away

She pulled the hammer down  
Wants me face on the ground

You can't disguise poison eyes  
She wants my life, I can't hide from  
Poison eyes

She crashed through the door  
She said, "I won't be your fool no more"  
Smiles, and pulls the hammer back  
Get even or bust, she's on the attack  
(shoot me)

You can't disguise poison eyes  
She wants my life, I can't hide,  
I can't hide, I can't hide from your eyes  
You can't disguise poison eyes  
It's time to die for my lies  
(from your)  
Poison, Poison, Poison eyes
