

Radiohead, Desert Island Disk

Help as I go upon my way
So let me go upon my way
Born of a light
The wind rushing round my open heart

An open ravine
With my spirit white
With my spirit light
Totally alive
Totally relieved

Through an open doorway
Across a stream
Into another life
And catching my reflection in a window
Switching on a light
One I didn't know

Waking up from shutdown
From a thousand years of sleep
In you... you know what I mean
Standing on the edge of.. you know what I mean
Different types of love are possible
