

# Radiohead, Dollars & Cents

There are better things  
To talk about  
Be constructive  
Bear a weapon  
We can use  
Be constructive  
With your blues

Even when he turn  
The war to peace ???  
Even when he turn  
The war to peace ???

Why don't you quiet down?  
Why don't you quiet down?  
Everyone has promised me! ???  
Why don't you quiet down?  
I want a piece of the promised land! ???  
Why don't you quiet down?  
I want to hear you promise me! ???  
Man you always promise me ???  
Quiet down!  
Man I want to be free! ???

You doing living in a fantasy ???  
He never calls and he never stays ???  
With our cause and our liberal wills ???  
Living in times when I can't stand the pain

All over the streets  
All over and maybe I could see out of here  
All over the promised land  
All over the promise  
All over and let me out of here  
All over All over All over over over over

Quiet down  
We are the dollars and cents and the pounds and pence and the mark and the yen and yeah  
Why don't you quiet down?  
and we're going to crack your little souls  
Crack your little souls  
Why don't you quiet down?  
We are the dollars and cents and the pounds and pence and the pounds and pence  
Why don't you quiet down?  
and yeah we're going to crack your little souls  
Crack your little souls

We are the dollars and cents
