

Radu, Fly

My night is nothing without you,
My day is nothing without you,
Im like a bird but I cant fly,
You broke my wings, you took my sky
Your smile means everything to me,
Your touch means everything to me,
But no more tears and no more lies,
I set you free, I let you fly
Fly, fly
Bird in the sky
Fly, fly
And take your love (la la la)
Fly, fly
Without goodbyes (wa-wa)
My life is empty without you,
My heart is empty without you,
I was so strong and full of life,
You make me weak, you let me die.
Im so afraid to try to live,
Im so afraid to try to breathe,
I dont know how, I dont know way,
I let you free, I let you fly.
