

# Radu, Fly

My night is nothing without you,  
My day is nothing without you,  
Im like a bird but I cant fly,  
You brake my wings, you took my sky  
Your smile means everything to me,  
Your touch means everything to me,  
But no more tears and no more lies,  
I set you free, I let you fly  
Fly, fly  
Bird in the sky  
Fly, fly  
And take your love (la la la)  
Fly, fly  
Without goodbyes (wa-wa)  
My life is empty without you,  
My heart is empty without you,  
I was so strong and full of life,  
You make me weak, you let me die.  
Im so afraid to try to live,  
Im so afraid to try to breathe,  
I dont know how, I dont know way,  
I let you free, I let you fly.
