

# Raekwon, Call Of Duty (feat. Akon)

This is a renegade salute, yeah we on that  
And keep what we kill, yeah we on that  
We never fightin? we just cock and go click clack  
Turn that ass ?round, bring it all back  
Know you see me  
I know you see me  
I know you see me

Everybody call me the top driver  
Run it down to the end of the drive line  
This is a callout, callout, callout  
Are you ready for the massacre?  
Somebody throwing down, down, down, down  
Sirens blaring, but they can?t help you now  
Sirens, can?t help you now

[Raekwon:]  
Murder by numbers in Monaco  
Me all fresh to death, big white thing go kinda slow  
Got my elites in the suites, my stones is roughed up  
Camouflage pants, my gold cheek  
When we go, yo, we go together  
Whatever is said, it?s still combat boots on the door  
Still get a million a week, got the lions in the yard  
Barbeque and breadsticks and chic  
Fly generals, international, rational raps  
Who kill like ten percent of these rats?  
My team thumpin? in the crunches  
We fucks with the hard, not anything else just hard

This is a renegade salute, yeah we on that  
And keep what we kill, yeah we on that  
We never fightin? we just cock and go click clack  
Turn that ass ?round, bring it all back  
Know you see me  
I know you see me  
I know you see me

[Raekwon:]  
Tiger claw scar on his neck, rockin? links  
Mad Bull PTS riles and minks  
Soldiers and gorillas fall fast in the paint  
Protect the projects, intersections, and inks  
You still prove gooses are we mooses?  
Ears and eyes, mad jury on that blare like acoustics  
Kill, kill, kill, kill, yeah more, while she's dying to feel  
Soldier ceremony, we gon' go with horses  
Nobody dying tonight, cause I said so  
More gold chariots, fly back, we fly home  
Sit back blinded in the cabin, General Bang  
Hundred medals on his chest, neck and stab him

This is a renegade salute, yeah we on that  
And keep what we kill, yeah we on that  
We never fightin? we just cock and go click clack  
Turn that ass ?round, bring it all back  
Know you see me  
I know you see me  
I know you see me

(Revolutionary) What is it like to be helpless?  
When you're laying there hungry, yeah  
Feel the pain and you're half dead  
Not a game, no contest

And no matter how strong you are  
Thought that you could be  
You listen to me (hey)

This is a renegade salute, yeah we on that  
And keep what we kill, yeah we on that  
We never fightin? we just cock and go click clack  
Turn that ass ?round, bring it all back  
Know you see me  
I know you see me  
I know you see me
