

# Rage, Be With Me Or Be Gone

We were the brotherhood  
We blindly understood  
Were all we needed, it was good  
Has been as close, just as we could  
But as the years went by  
I've seen our friendship die  
And when I look into your eyes  
It seems you're going separate ways

The inner pressure to hold on tight  
Is not a pleasure  
Reflect your feelings, do what you want  
You better let me know

You should be with me or you should be gone  
(Don't waste my time)  
You'd be with me or you should be gone  
(Don't waste my time)  
Be with me or be gone  
Be with me or be gone  
Stay on my side or leave me be

We went through thick and thin  
We made it all begin  
And formed a union hard as rock  
A grooving machine that was locked  
We must have lost this feel  
Life's not like stainless steel  
Corrosion of integrity  
Deceased in our identity

The inner pressure to hold on tight  
Is not a pleasure  
Reflect your feelings, do what you want  
You better let me know

You should be with me or you should be gone  
(Don't waste my time)  
You'd be with me or you should be gone  
(Don't waste my time)  
Be with me or be gone  
Be with me or be gone  
Stay on my side or leave me be
