

# Rage, Dying To Live

Nightfall has darkened these fields of winter  
Snow white are covered my brothers out there  
Bodies in camouflage, torn and tortured  
Price to be free one more night

I was a student, my father a teacher  
We loved our lives and we lived it peaceful  
Now we must carry these guns and armour  
With our end coming in sight

Doomed in our anger and fear of the downfall  
We're forced to be dying to live  
Senseless aggression to kill and destroy all  
We're forced to be dying to live  
Sacrificed for our hope for redemption  
Although we had so much to give  
We're dying to live

Trust in our cultural evolution  
Was built on sand, like our constitution  
No one believed this would come back to us  
We felt so safe and secure

How can one man dare to throw the whole world  
Into the abyss of ruin and downfall  
Tyranny offers just death and destruction  
There is no future for sure

Doomed in our anger and fear of the downfall  
We're forced to be dying to live  
Senseless aggression to kill and destroy all  
We're forced to be dying to live  
Sacrificed for our hope for redemption  
Although we had so much to give  
We're dying to live

Please give us peace  
We gave it all we can give  
We can't take no more  
,Cause we are dying to live

Doomed in our anger and fear of the downfall  
We're forced to be dying to live  
Senseless aggression to kill and destroy all  
We're forced to be dying to live  
Sacrificed for our hope for redemption  
Although we had so much to give  
We're dying to live  
We're dying to live
