

# Rage, Heartblood

On a dusty winding road luck is not for free  
If you did like you were told you will never see  
Just give me your heartblood...  
Can it be a sin to speak in the tongue of freedom?  
You will only win if you try the best to be you  
Just give me your heartblood...  
Warfare in a sick society  
Out there give it all or leave it be  
No fear! What do you mean- security?  
Who cares about you? You'll only hear:  
Give me your heartblood...
