

# Rage, Saddle The Wind

Now I know it's time again to change my life  
Yes it's time for me to leave it all behind  
Say goodbye to all I'd have if I'd stay here  
No, I don't need it anymore

The wind is whispering in the trees, they call my name  
The birds that leave me down here, they all do the same  
Don't you think that I don't care  
There'll be a time  
When I am old enough to stay

There's this longing in my heart that must be fed  
It gets its thrills outside the walls  
There are still so many pictures in my head  
I must follow to this call

As I leave it all behind - saddle the wind  
Satisfy my longing mind - saddle the wind  
As I leave it all behind - saddle the wind  
Say goodbye from time to time - saddle the wind

As I see the naked earth, wide open fields  
There's a vision to become a part of it  
In its sparkling waves the river invites me  
To join it on the journey to the sea

And always when I feel I've got a home  
Then I need to get away

As I leave it all behind - saddle the wind  
Satisfy my longing mind - saddle the wind  
As I leave it all behind - saddle the wind  
Say goodbye from time to time - saddle the wind

There's this longing in my heart...

Saddle the wind
