

# Rage, Time And Place

When my time to die has come,  
Where will be the time and the place  
To return from eternal space  
Like a shadow out of time

Everything that lives on earth  
Has got a mind to start once again  
When a life has passed  
Beginning and end, they go hand in hand

And when I'm gone, what will become of me,  
an animal or a man?  
Where'll be the time and the place

In this endless cycle  
Noone gets lost

Tiny like dusts we're whirled away  
In oceans of the universe

Where'll be the time and the place,  
Time and place

Caught in time and place
