

Randy Travis, Walk With Me

Walk with me through darkness
Every day and every night
Walk me through the darkness
Walk me until I reach the light
We all stumble on life's journeys
We all need a helping hand from time to time we all wonder how we fit in your
plan

Walk me through the darkness
hold my hand when I am lost
Carry me when the road gets rough
pick me up each time I fall
Let your presence be here with me
every day and every night walk with me through the darkness
walk with me until I reach the light
When I am in my darkest hour and feel like giving up
Take this weight from off my shoulder fill my heart with your love
Walk me through the darkness
Walk with me till I reach the light
