

# Ray Charles, Christmas Time

Down through the ages  
Round this time of year  
People's hearts all a-glow  
Yuletide carols fill the air with cheer  
While children laugh and play out in the snow  
Lights on christmas trees  
And snowflakes fallin' down  
What a lovely site to see  
You will always know when christmas time is near  
You feel the need to be in harmony  
'Cause christmas time  
Is really more than givin'  
It's spreading all the news of peace and love  
Christmas time  
Is all about receiving  
The gift that god has sent from up above

[instrumental interlude]

People goin' here  
And people goin' there  
Buying gifts for those they  
Know and love  
Never stop to think  
That the greatest gift of all  
Is he who sends his love from up above  
Waitin' in suspense  
To open all my gifts  
It seems like the time just creeps along  
When we finally see the presents that we have  
We open up our hearts and sing this song  
That christmas time  
Is really more than givin'  
It's spreading all the news of peace and love  
Christmas time  
Is all about receiving  
The gift that god has sent from up above  
Christmas time  
Is really more than givin'  
Christmas time  
Is all about receiving  
Christmas time  
Spreading news of peace and love  
Christmas time  
The gift that god has sent from up above  
Christmas time  
Is really more than givin'
