

# Ray Charles, Honey, Honey

When I got misery, oh my where are you, honey  
Honey, oh honey honey, where can you be

Whisperin when the lights are low, to each  
Teardrop on my pillow  
Honey honey, honey honey, where are you

I crossed the scalds in dessert, just to be where  
You are  
I want you need you love you, but still we're apart

When I want to hold you, oh my where are you  
Honey honey, my honey honey, where can you be

[Solo Piano]

When I want to hold you, oh my where are you  
Honey honey, my honey honey, where can you be
