Reba McEntire, Climb That Mountain High

Red sun a-rising, over the hill I've had enough of this desert to last from now until I'm tired of living day-to-day and hand-to-mouth This could be the day I finally find my way out

Chorus:

I'm gonna climb that mountain high I'm gonna see what's on the other side I'm gonna kiss this town good-bye I'm gonna climb that mountain

How I arrived here, heaven only knows Seems more like the kind of place the devil would've chose To spend my life here, is more than I can do I know somewhere down the road my dream will come true

Repeat Chorus

If I stay here forever What will I have to show But if I make it over Then everyone will know I'm gonna climb that mountain high

Repeat Chorus
