

# Reba McEntire, It's Not Over (If I'm Not Over You)

You can tell everyone love is over and done you can pack all your things and go  
You can lie to yourself and say that there's nothing left  
But there's something that I like you to know  
It's never really over even though you say we're through  
You may be holding me but can't you see it's not over if I'm not over you  
[ fiddle ]  
There's not much I can do if it's over for you  
I'll just wish you the best when you leave  
But you played such a part in my life and in my heart you'll always be part of me  
It's never really over...  
You may be holding me but can't you see it's not over if I'm not over you
