

# Reba McEntire, Love Revival

(Leslie Satcher/Marc Harris)

Now I know what you need  
And you know what I need  
The whole dang block knows this whole house needs  
A love revival, love revival up in here  
Now I know I'm preaching  
'Cause I'm certainly not leaving  
But it's time to get excited and the neighbors aren't invited  
To this love revival, love revival up in here  
So sit up and listen, boy  
'Cause I'm tired of being nice  
Now mamma's gonna tell you what she needs tonight

Revival, revival  
Well, give me something soulful  
Honey, all I need are your two arms around me again  
So, if you're in this till the end  
Then let the love revival begin

I feel the spirit the spirit's moving  
I feel the spirit moving

So, I pray you won't deny me  
Now that I've said my peace  
And I'll say it again, son  
Just in case you were asleep  
I want a love revival, love revival up in here  
'Cause I know what you need  
And you know what I need  
The whole dang block knows the whole house needs  
A love revival, love revival up in here  
So sit up and listen, boy 'cause I'm tired of being' nice  
Now mamma's gonna tell you what she needs tonight

Revival, revival  
Well, give me something soulful  
Honey, all I need are your two arms around me again  
So, if you're in this till the end  
Then let the love revival begin

Well, we're both in this till the end  
So let the love revival begin

I feel the spirit, the spirit's moving  
I feel the spirit, the spirit's moving  
I feel the spirit, the spirit's moving  
I feel the spirit, the spirit's moving

Revival, revival  
Well, give me something soulful  
Honey, all I need are your two arms around me again  
So, if you're in this till the end  
Then let the love revival begin

Revival, revival  
Well, give me something soulful  
Honey, all I need are your two arms around me again  
So, if you're in this till the end  
Then let the love revival begin
