Reba McEntire, One Thin Dime

(Jackson Leap/Michael Heeney)

Your mind's made up You're gonna leave Nothing I can say will stop you so it seems But before you up and go There's just something you should know When you find that I'm the one you still need

One thin dime
Is all it takes
When you need someone who cares
These arms of mine
Are always open
One thin dime is all you need
And I'll be there

Oh you're chasing rainbows and I understand When you're through I'll take you back again I'll be waiting patiently For when you come back to me Ain't nobody else can love you like I can

One thin dime
Is all it takes
When you need someone who cares
These arms of mine
Are always open
One thin dime is all you need
And I'll be there

You know the number I'm always home
So honey just pick up and dial that telephone When this world treats you unkind Get your momma on the line
There ain't no need for you to ever be alone

One thin dime
Is all it takes
When you need someone who cares
These arms of mine
Are always open
One thin dime is all you need
And I'll be there

These arms of mine
Oh they're always open
One thin dime is all you need
And I'll be there
