

# Reba McEntire, One To One

(Jerry Foster/Bill Rice)

One to one  
You and me  
Anyone with eyes can plainly see  
How it is with you and me

One to one  
From now on  
In each other's arms where we belong  
And how we love when we're alone

We have so much between us  
We know each other's needs  
And you make it oh so good  
When it's just you and me

One to one  
You and me  
Anyone with eyes can plainly see  
Oh how it is with you and me

One to one  
From now on  
In each other's arms where we belong  
Oh how we love when we're alone

One to One
