Reba McEntire, Rain Fallin'

(Charlie Black)

Rain Fallin,Fallin Rain It's a long and troubled night A night when I wish I could sleep But there's no sleep inside

Heart Breaking, Breaking heart It's such a lonely sound That cries for the need of someone But there's no one around

Nobody here to hold No one to warm the cold That lies deep within my soul All around, just the sound of the Rain Falling, Fallin Rain Like gentle tears of pain That comes with my only friend It's the gently falling rain

Nobody here to hold No one to warm the cold That lies deep within my soul All around, just the sound of the Rain Falling, Fallin Rain Like gentle tears of pain That comes with my only friend It's the gently falling rain
