

Recover, My Only Cure

all the cells in my body
are giving up slowly
you're an injury
and I am unholy

street smart like a sailor
worldly like a whore

permanant sleep is my only cure
it hurts all the time, it won't hurt anymore
you can't help me no one can
you can't help me no one can

all the blood in my body
is pouring out slowly
you're the reason why
I am unholy

worldly like a sailor
street smart like a whore

permanant sleep is my only cure
it hurts all the time, it won't hurt anymore
you can't help me no one can
you can't help me no one can

drive half way! drive half way!
you won't make it! you won't make it!
drive half way! drive half way!
you won't make it! you won't make it!

you can't help me no one can
you can't help me no one can
you can't help me no one can

drive half way!
drive half way!
drive half way!
drive half way!
