Red Hot Chili Peppers, Magpie's On Fire

Magpgie's on fire making love like little worms out on the porch can leave the medicine oh well I?m game, for anything at all

Scarecrows a liar spends the year alone no one checked it out to see if it was real sold you the moon and now it?s time to fall

All in all it?s like the bird who?s trapped alone inside the cage love

What more do you want? how much more can you take? I love my mistakes I?ve been here before

All in all it?s just a call of something wise beyond your room there?s a changing of a major chord your minor threat will do, love

My gun misfired shot myself instead i guess i always knew id be the one to lose last scream dont slane time to make a move

What more do you want? how much more can you take? I love my mistakes I?ve been here before

All in all it?s like the bird trapped inside the cage love A bird bout half your age, girl a bird who?s never really here to say

What more do you want? how much more can you take? I love my mistakes I?ve been here before

Least of all she?s like a bird who?s now been freed from someones cage
