

# Redd Kross, Love Is You

You're my love  
You're my happiness  
You're the one  
You're the reason why it's true  
oh yes you  
You're the sun  
All it's happiness  
You're my love  
and all my love is you  
oh yes you

Won't you stay just a little while  
We can be friends  
Share a smile  
Loving you is all I need  
When you say that love is me  
You're the smile  
Reflections of my face  
In your eyes  
I know it's always you  
oh yes you  
You're my love  
You're my happiness  
You're the one  
You're the reason why it's true  
oh yes you  
You're the sun  
All it's happiness  
You're my love  
and all my love is you  
oh yes you

Won't you stay just a little while  
We can be friends  
Share a smile  
Loving you is all I need  
When you say that love is me
