

RedOne, Don't You Need Somebody (ft. Enrique

Wide awake, wake, wake
Until 6am
Let me make, make you come again
Keep it hush, hush
Don't tell no
One
Got enough, enough, enough
To turn you on!

Baby just keep it our little secret
What they don't know won't do them no harm
We an do mouth to mouth with no speaking
We can see eye to eye in the dark

Don't you need somebody?
Baby I wanna know
To keep you up all night
Don't you need somebody?
When I knock
When I knock are you open up
Your love can let me in
Don't you need somebody?
To keep you up all night
Baby I;m at your door
Don't you need somebody?
When I knock are you open up
Your love can let me in

Waited long, long, long to get your call
You're alone, alone, alone you want me now
I'm run run run a red, red light
Then take it slow, slow, with you all night
