

# Reef, Moaner Snap

I'd been waiting forever

Hoping that my past catches up with me

Well hope can keep you together

But my friends I saw all i needed to see

I was always searching for you

Now I seem to find:

today already gets better

When I don't compare with another time

like it was on the first time.

Looking back at the other

Only wound tighter inside me

Now I notice the difference because my friends it's there for all to see

i was fed up with complaining

It was making me so angry

Everyone has a password

And i think today is yours to find

Like it was on the first lime

New day says nothing to mind

Just like it did on the....

I've been with you too long
