

# Remo, Against The World (ft. Jeremi Sikorski)

I was worried  
I was losing  
Couldn't even feel a high  
I was down  
Staying wounded  
Was afraid to feel alive

You were there  
In your own world  
And the night left me breathless  
I, I was running  
Coz I want you so recklessly

And now  
Nothing can bring us down  
We're living up in the clouds  
Just with you girl  
And it's us Against The World  
And it's us Against The World

Find myself  
Getting higher  
Having dirty feel as ...  
Only hunt like a tiger  
Try not breaking another heart  
I was dump  
Being stupid  
... lose again for love  
Now my ... are in ruins  
You break them down every time

And now  
Nothing can bring us down  
We're living up in the clouds  
Just with you girl  
And it's us Against The World  
And it's us Against The World

Nothing can bring us down  
We're living up in the clouds  
Just with you girl  
And it's us Against The World

Don't fall back  
Don't fall back, I've got you  
Don't fall back  
Don't fall back, I've got you

And it's us Against The World  
And it's us, And it's us against The World  
Don't fall back, I've got you
