

# Richie Sambora, I'll Always Walk Beside You (ft. A

Sometimes we live inside the madness  
We have to make it through the sadness,  
What's worse, a blessing or a curse,  
It's gonna take a little practice  
We gotta keep on keepin' at this  
Live and learn, can't let us crash and burn

When you feel alone  
I will sing you home  
I'll be there,  
To help you make it through  
When your tears are gone  
And we will go on, I swear,  
There's nothing I won't do  
I'll always walk beside you  
Beside you

Sometimes there's nothing to believe in,  
You end up searching for a reason,  
Breath in, and just believe in me  
Many roads lead through the darkness  
Feeling hopeless, feeling heartless  
Reach out, I'll give you all you need.

When you feel alone  
I will sing you home  
I'll be there,  
To help you make it through  
When your tears are gone  
And we will go on, I swear,  
There's nothing I won't do  
I'll always walk beside you

I, I'll never get ahead of us  
I, I will never leave you behind,  
I'll always walk, always walk beside you

When you feel alone  
I will sing you home  
I'll be there,  
To help you make it through  
When your tears are gone  
And we will go on, I swear,  
There's nothing I won't do  
I'll always walk beside you  
Beside you,  
Always walk beside you  
Beside you,  
Always walk beside you  
Beside you,  
I will walk  
Beside you
