

Ricky Martin, Life

Life, it's the only thing that you get for free
free is what we all want to be
Take a walk around the block til you see
Everything you want life to be
Tell your mother, beg your father
Respect your sister, talk to your brother
Don't wait don't bother, don't try to save it
Sooner or later, you will discover
Oh life is for sure, but it's for sure, you can't make it [x2]
It's the love alive gets that is both
Love it's the only dream in my heart and soul
Easier to dream than it is to cry
When you're in love goodbye
Tell your mother, beg your father
Respect your sister, talk to your brother
Don't wait don't bother, don't try to save it
Sooner or later, you will discover
Oh life is for sure, but it's for sure, you can make it [x2]
Beg your father
Don't wait don't bother
Sooner or later, you will discover
Tell your mother
Respect your sister, talk to your brother
Don't wait don't bother
You will discover
Tell your mother
Respect your sister
Don't wait don't bother
You will discover
Go thank your mother, thank you father...
