

Ricky Martin, Love Yuo For A Day

Qu ser oh qu ser

The future will be, will be with us

i've seen the headlines

in the paper

they say the end is coming soon

i wanna make love till it's over

if i'm goin' down it'll be with you

CHORUS:

let me love you for a day

let me have you for a night

let me take you far away

into forever...ay,ay,ay

i don't wanna let you go

nena yo...

let me undress your soul

ay,ay,ay...

i can take you to another world

never go

let me take you home tonight

qu ser oh qu ser

as the countdown's getting closer

there is madness in the air

i wanna be under the covers

baby, in your arms without care

REPEAT CHORUS:

qu ser oh qu ser

the future will be, will be with us

let me love you for a day

let me have you for a night

let me take you far away

let me love you for a day

let me hold you through the night

i know my love will make you stay

with me forever...ay,ay,ay

i don't wanna let you go

nena yo...

let me undress your soul

ay,ay,ay...

i can take you to another world

never go

let me take you home tonight
