

# Ricky Nelson, California

I'm goin' home to California  
And I'll be there in about a week  
And I've been gone too long to worry  
Can't you see I'm in a hurry  
California, here I come

I've got some people in California  
I hope they'll be there when I get home  
But I've been gone too long to worry  
Can't you see I'm in a hurry  
California, here I come

Gonna live in a canyon made of gold  
And there the sunshine shines everyday I'm told  
And I've been gone too long to worry  
Can't you see I'm in a hurry  
California, here I come

I'm goin' home to California  
And I'll be there in about a week  
And I've been gone too long to worry  
Can't you see I'm in a hurry  
California, here I come
