

# Ride, Ride The Wind

I've been waiting round some time  
Just to live a life that's mine  
I've been walking round this town  
When there's no one else around  
You can hear it everywhere  
This is our eternal prayer  
Let it go, Ride the wind  
Let it go, Ride the wind

You'll see me, I'll come and see you  
Always finding something to do  
Love is needing, I'm needing love  
Got to know that there is enough  
We've been working far too late  
Carrying this heavy load  
Let it go, Ride the wind  
Let it go, Ride the wind
