

# Ride, Twisterella

Any minute you will feel  
The chemistry  
Vibrations in the brain  
Can't ever be explained

Slip away and out of sight  
Feel the magnet of a night  
The circus lights you see  
Is where you have to be

If I've seen it all before  
Why's this bus taking me back again  
If I don't need anymore  
Why's this bus taking me back again

Feel the weight of letting go  
Feel more lightness than you've ever known  
You can't see when light's so strong  
You can't see when light is gone

Look at twisterella She hasn't got a fella
