

Ride, Walk On Water

Beautiful Lady, I love you so
You know I need you, please don't go
Just like a child, I'm running wild
I'd walk on water for your smile

I'd walk across the sea
To get you close to me

This life we're living, it can break your heart
But all these contradictions won't pull us apart
Don't be afraid, I'm gonna stay
Felt like the end, but it was just the start
