

# Righteous Pigs, Dormant Catastrophe

Freeways bend like rubberbands  
Buildings crumble turn to sand  
From the ocean tidal waves  
Millions killed, thousands saved

Knew about it 1000 years  
Thought about it drank some beers  
California was real close  
Now Las Vegas is the coast

Dormant catastrophe  
People are too dumb to see  
It can happen any fuckin' day  
California floats away...
