

# Rihanna, As Real As You And Me

There could be a freak accident  
There could be a fatal disease  
I know we hate to think about it  
But this as real as you and me  
This as real as you and me

We could all fall down  
Before our savior could return  
I know we hate to think about it  
But this as real as you and me

If I should go  
Hold my hand  
If I should leave  
Time cover me, please

The earth could quake to ruin  
We could drift off in our sleep  
I know we hate to think about it  
But this as real as you and me  
This as real as you and me

The ocean crushed the shore  
And take us down forever more  
I know we hate to think about it  
But this as real as you and me

If I should go  
Hold my hand  
If I should leave  
Time cover me, please  
I know we hate to think about it  
But this as real as you and me  
This as real as you and me
