

Rihanna, Push Up On Me

<We break, break
We break, break
We break, break
We break 'em down

We break, break
We break, break
We break, break
We break 'em down

It's getting later baby, and I'm getting curious
Nobody's looking at us, I feel delirious
'Cause the beat penetrates my body
Shaking inside my bones
And you pushin all my buttons, taking me outta my zone, yeah

The way that you stare, starts a fire in me
Come up to my room you, sexy little thing
And let's play a game, I won't be a tease
I'll show you the boom, my sexy little thing

(chorus:) (2x)
I wish you would push up on it
I wish you would push up on it
I wish you would light me up and say you want me push up on me

I know many guys just like ya, extremely confident
Got so much flavour with you but you the perfect man
You wanna make me chase ya like it's a compliment
But let's get right down to it
I can be the girl that'll break you down

The way that you stare, starts a fire in me
Come up to my room, you sexy little thing
And let's play a game, I won't be a tease
I'll show you the boom, my sexy little thing

(chorus:) (2x)
I wish you would push up on it
I wish you would push up on it
I wish you would light me up and say you want me push up on me

We break, break
We break, break
We break, break
We break 'em down

We break, break
We break, break
We break, break
We break 'em down

I wanna see how you move it
Show me, show me how you do it
You really got me on it, I must confess (I must confess)
Baby there ain't nothing to it
Baby who you think you're fooling
You wanna come and get me outta my dress, oh...

The way that you stare, starts a fire in me
Come up to my room, you sexy little thing (Sexy little thing)
And let's play a game, I won't be a tease (Oh baby)
I'll show you the boom, my sexy little thing

(chorus:) (2x)

I wish you would push up on it (I wish you would)

I wish you would push up on it (I wish you would)

I wish you would light me up and you say you want me push up on me

We break, break

We break, break

We break, break

We break 'em down

We break, break

We break, break

We break, break

We break 'em down>
