

# Rihanna, Red lipstick

Red lipstick, all on the paper  
Let me take a hit while you sit and rush  
Go hate, talk shit, it's all on the paper  
Let me grab my tit while you sit on top  
Do you right here while the whole world's watching  
All up in my mental, gotta get up in my physical

Don't know what you did  
But you really got me feeling  
That feeling tonight  
All on you, K  
Cause you really got me feeling  
That feeling tonight  
I want you babe  
Got me going cray  
Hard to let it go, let it go  
Just show me where you want me baby  
Can't fight the feeling  
Cause you really got me feeling  
That feeling tonight

Can't fight the feeling  
Can't, can't, can't fight the feeling, yeah  
(when I like, can't lie)  
I just Can't fight the feeling  
Can't, can't, can't fight the feeling, yeah  
(Do whatever you like)  
Can't fight the feeling  
Can't, can't, can't fight the feeling, yeah  
(you're gonna learn tonight)  
Can't fight the feeling  
Can't, can't, can't fight the feeling, yeah
