

Riot/Clone, One Struggle, One Fight

Cut down the rainforests, so cattle can graze, a short sighted act causing long term malaise
Rare species and plant life extinct for all time as they carve the ridiculous from the sublime
Feed the bulk of grain harvested to the meat herds while people are starving all over the world
The waste from herds poisons water supplies, the meat industry causes people to die

Stop interspecies discrimination, animal liberation is human liberation
Put an end to all exploitation, animal liberation is human liberation

How can you speak of compassion when the weakest are treated in this fashion
Human liberation, animal rights, one struggle, one fight

Give all sentient creatures consideration, animal liberation is human liberation
Put an end to all exploitation, animal liberation is human liberation

The basic roots of our oppression stem from hierarchical obsession
Human liberation, animal rights, one struggle, one fight

Destroy the exploitive corporations, animal liberation is human liberation
Put an end to all exploitation, animal liberation is human liberation

Create the illusion that science cures all, shout about breakthroughs that aren't there at all
Deride all your critics as dangerous cranks, to keep public donations flowing into the bank
No justification for all we are told, vivisection's has not yet cured so much as a cold
Stop the money men, ignore all their patter, profits mean all to them, health and safety don't matter
Animal Liberation is human liberation (repeat 3 times)
