

# Rita Ora, Body on Me (ft. Chris Brown)

Baby let's cut down the lights  
I just really wanna let this fire run bright  
I'm just telling you to have an open mind  
Just imagine us

You're taking me there, you're taking me there  
Our lips are barely touching  
So do it again, so do it again  
We could be on to something

I just wanna feel your body on me  
If you want it then you got it, hold me  
No more, no more wasting time, we can, we can go all night  
I just wanna feel your body on me  
Body on me  
Your body on me  
Your body on me

Put you up against the wall  
And I'ma go to work 'til you get up  
Baby, soon as you're done we'll go some more  
Girl just imagine us

You're taking me there, you're taking me there  
Our lips are barely touching  
So do it again, so do it again  
We could be on to something

I just wanna feel your body on me  
If you want it then you got it, hold me  
No more, no more wasting time, we can, we can go all night  
I just wanna feel your body on me  
Body on me  
Your body on me  
Your body on me

I'm not asking for too much, put your fingers, lips on me  
Don't wait 'til the sun's up, we can keep this in between  
Us, only nobody has to know what's going down right now baby

I just wanna feel your body on me  
If you want it then you got it, hold me  
No more, no more wasting time, we can, we can go all night  
I just wanna feel your body on me  
Body on me  
Your body on me  
Your body on me
