

Rita Ora, The Single Most Amazing

The single most amazing thing in the room

Hey!

After just two rings, she answered him

Their rendez-vous

What's on to become most talked subject on the evening news

What to wear, how much to bear

Color lip-stick, and which perfume?

And how she could be the single most amazing thing in the room

She looked up and there he wasn't now

She's firmly distracted

Up and down, in fact be good

Definitely attractive

On the drivest times

She didn't care how many there were and who

'Cause she was fallin' in love with single most amazing thing in the room
