

Rita Ora, Unfeel It

Something about our bodies
How they intertwine
And when you said you loved me
All I did was cry
Now I'm at a standstill
With those big brown eyes
I'm just on your time

'Cause you're a mad man
I'm your rider
If you asked me
I'd be right there
So come closer
My supernova
'Cause now I'm
I'm freaking out
I'm freaking out
I'm freaking out

Yeah you got me all fucked up
And I'm all out of place
You got my heart locked up
And I just can't escape
And I can't unfeel it
How do I unfeel it?
'Cause I can't unfeel it
Feel it, feel it

Yeah, you got me all fucked up
And I'm all out of place
You got my heart locked up
And I just can't escape
And I can't unfeel it
How do I unfeel it?
'Cause I can't unfeel it
Feel it, feel it
There's no way

My friends think I'm crazy
And they're kinda right
It's that good good sweet loving
Keep you up all night
Oh baby, how dare you
Messing up my mind
I'm freaking out
I'm freaking out
I'm freaking out
I'm freaking

Yeah, you got me all fucked up
And I'm all out of place
You got my heart locked up
And I just can't escape
And I can't unfeel it
How do I unfeel it?
'Cause I can't unfeel it
Feel it, feel it
There's no way

I don't love you
Fuck you I love you
I never meant to give my heart away
It's an obsession
Closer to heaven

I'm freaking out
I'm freaking out
I'm freaking out
I'm freaking

Yeah, you got me all fucked up
And I'm all out of place
You got my heart locked up
And I just can't escape
And I can't unfeel it
How do I unfeel it?
'Cause I can't unfeel it
Feel it, feel it

Yeah, you got me all fucked up
And I'm all out of place
You got my heart locked up
And I just can't escape
And I can't unfeel it
How do I unfeel it?
'Cause I can't unfeel it
Feel it, feel it
There's no way
