

# Rita Ora, You & I

I used to listen to the love songs on repeat  
Tryna figure out how they would work for me  
I just wanna dance with somebody  
Somebody who loved me  
Now I see you standing in our garden lights  
Damn, I knew when I got dressed to go that night  
That I finally found that somebody  
To stand by me

I will ride for you  
Spare my life for you  
If you asked me to

Now I'm dancin' in your arms to "Eternal Flame"  
I know my life is never gonna be the same, that's fine  
There's a lifetime in those eyes  
Now we're singin' all the words to "Sweet Caroline"  
And you say to me, "I love the way you look tonight"  
You know I, I never got it right  
Until I found you and I

Always thought that the one thing waitin' for me  
Was not a wonderful world, but a tragedy  
But you went and rewrote our whole story  
To an everlasting love

I will ride for you  
Spare my life for you  
If you asked me to

Now I'm dancin' in your arms to "Eternal Flame"  
I know my life is never gonna be the same, that's fine  
There's a lifetime in those eyes  
Now we're singin' all the words to "Sweet Caroline"  
And you say to me, "I love the way you look tonight"  
You know I, I never got it right  
Until I found you and I

(Oh, oh) You and I (Oh, oh)  
Until I found you and I (Oh, oh, oh, oh)  
Ooh, you and I (Oh, oh, oh)

Now I'm dancin' in your arms to "Eternal Flame"  
I know my life is never gonna be the same, that's fine (That's fine)  
There's a lifetime in those eyes (There's a lifetime)  
Now we're singin' all the words to "Sweet Caroline"  
As you say to me, "I love the way you look tonight"  
You know I, I never got it right (No, I never got it right)  
Until I found you and I
